

Remarks/Arguments:

The applicant would like to thank the examiner for the telephonic interview on September 24, 2008, in which how the claims can distinguish the simplified messages of the present case from HTML, as shown in the prior art, were discussed.

The above Amendments and these Remarks are in reply to the Final Office Action mailed June 12, 2008.

Claims 1, 5, 6, 15, 24, 28, 29, 38, 42, 47, 51, 52, 61 and 65 are rejected under 35 U.S.C. 103(a) as being unpatentable over Richards et al. (U.S. Publication No. 2002/0147850) in view of Jaworski (JAVA 1.1, Developer's Guide, Second Edition).

The claims have been further amended to distinguish the prior art.

For this reason, the combination of the prior art does not produce the present claimed invention.

In light of the above, it is respectfully submitted that all of the claims now pending in the subject patent application should be allowable, and a Notice of Allowance is requested. The Examiner is respectfully requested to telephone the undersigned if he can assist in any way in expediting issuance of a patent.

The Commissioner is authorized to charge any underpayment or credit any overpayment to Deposit Account No. 06-1325 for any matter in connection with this response, including any fee for extension of time, which may be required.

Respectfully submitted,

Date: September 30, 2008
